How we can help

Regulation 21 of the workplace

(Health, Safety and Welfare) Regulations 1992 (UK)

Washing facilities must include:

- ☑ Towels or other suitable means of drying
- ☑ Soap or other suitable means of cleaning

WE CAN HELP

Traditionally, our most popular services for the sport and leisure industry have included floorcare and washroom services. Our experts continue to meet the needs of successful modern sport and leisure centres with a wide range of workplace services.

A cleaner, drier and safer leisure club

- Slips and trips account for 41% of accidents in the workplace. Mats are important right across sites, especially around wet changing areas and entrances. Our specialist leisure matting reduces the risk of accidents, providing a comfortable, safe flooring surface and great welcoming first impression.

Creating healthier environments

- Our professional DBS-checked service teams will take care of all your washroom requirements, ensuring smart, cost saving, clean and hygienic facilities for customers and staff to use. Compliance with washroom legislation is guaranteed.

Air quality

- With air quality an issue in many inner city areas and indoor air containing up to five times more contaminants than outdoor air, we also provide air purification products that improve the air quality of your premises, to create a more hygienic and welcoming environment.

Remain legally compliant

- All public-facing businesses are affected by certain laws and regulations to prevent health and safety hazards from affecting customers. While it can be tricky to stay on top of the latest legislation, the expert team at **phs** is always on hand to answer questions and ensure that your business is legally compliant.

If you run a sport or leisure centre, ensuring that you provide welcoming, clean and compliant facilities won't just keep the health and safety inspectors happy – it will also make the right impression on your visitors and help to maintain member loyalty.

We appreciate that customer service and retention are your main priorities, but site maintenance and safety will contribute to the continued success of your organisation.

We work with over **3,000** sport and leisure clubs throughout the UK to help them reduce costs, remain compliant, hygienic and appealing to their customers.

Did you know?

By installing our Flow-saver Water Management System, we can help you **reduce your water consumption by up to 80%*** and save you money.

*Based on **phs** customer trial 2016.

Healthcare, washroom and floorcare hygiene is our business. We stay on top of all the legislative developments affecting your industry to provide you with expert advice on what you need to do to ensure that your business is legally compliant.

Our professional service drivers provide a discreet and efficient service, calling ahead to check that our servicing times are convenient for your business. And, if any of your products or services need change, we're just a call away and have the flexibility to adapt to whatever is needed.

We're in every geographical area and because we're **Next door. Everywhere**, we are on hand to help wherever you are. And as a single supplier, meeting all your needs, we can help reduce your day-to-day administration commitment as well as your financial costs.

Our sport and leisure centre blueprint shows the most in-demand services that we currently provide to the fitness and leisure industry.

Adhere to legislation

We will ensure that safety and hygiene at your sport or leisure club is handled strictly in line with current legislation and according to best practice guidelines
