

Maxi male washroom disposal bin

- Hygienically dispose of incontinence waste. The Maxi male washroom bin is a 45 litre male bin that is ideal for areas that are limited on space, or used less frequently.

Key features:

- Compact unit for areas with limited space
- Pedal operated
- Unit is fully cleaned on site before a new liner is inserted

Fully serviced

The Maxi male washroom bin is provided with a service agreement which is tailored to meet the footfall needs of the site. A complete liner exchange is undertaken on every visit, with bins fully cleaned before a new liner is inserted.

After every service, you'll receive an immediate automated email confirmation detailing the site and products serviced. We'll provide a time-captured signature, showing exactly when your service was carried out and who acknowledged our visit, so you can be sure you've got a complete service audit trail.

Hygienic

The Maxi male washroom bin is pedal operated, removing the need for hand contact and reducing the risk of cross infection. They are also treated with EnviroSan® Active, a safe and effective germicide which incorporates a natural enzyme to combat harmful bacteria and odour. This reduces bacteria levels by 99.99%, is certified against HIV, Hepatitis B and Hepatitis C, and is the only germicide to conform to BS1276 and BS13727.

Practical

Made from strong polypropylene, these units are scratch resistant with a smooth outer finish.

Key facts

| | |
|--------------|----------------------|
| Size | 34cm x 56.5cm x 43cm |
| Capacity | 45 litres |
| Construction | Polypropylene |

Fully compliant

PHS are fully licensed and compliant with all waste management regulations including Duty of Care. A full auditable waste trail is provided, offering peace of mind that your sites' waste is being dealt with safely and with respect for the environment.

LifeCycle

The **phs** LifeCycle strategy diverts customer waste away from landfill. It is instead taken to nearby energy recovery facilities where it is turned into power for the local community to use, providing a sustainable waste solution.
