

Corolla vision double vertical dispenser

> The Corolla vision is a double toilet roll dispenser that combines practicality and simplicity in a compact unit, and is ideal for medium to high traffic washrooms.

Efficient

The dispenser holds 200m of toilet roll making it ideal for medium to high traffic washrooms. The dispenser can also be set to restrict the number of sheets able to be dispensed in a single pull, helping to reduce use, waste and costs.

The design and vertical loading of the paper rolls ensures that the bottom roll must be fully used before the rolls' central core can be removed and the secondary roll accessed.

Practical

Made from strong and durable ABS plastic, the dispenser has a lockable hinged cover and is vandal and impact resistant, and with a smooth finish is easy to clean.

Contractual consumables

Our contractual consumable service takes the hassle away from having to regularly re-order and store stocks of washrooms consumables such as toilet paper.

We automatically dispatch consumables to you on a regular basis, and with free dispensers and consumable prices fixed for 3 years, you can be sure you're getting a great deal.

Key features:

- Compact units are suitable for even the smallest of cubicles
- Lockable, hinged cover reduces theft of paper
- Impact resistant and durable
