

AERAMAX[®] PROFESSIONAL II

> The solution that enhances the quality of your entire facility

The **phs AERAMAX[®] PROFESSIONAL II** is a solution that enhances the quality of your entire facility by eliminating odours and removing harmful germs, allergens and other irritants from the air. It is an ideal air purifier for small sized rooms, with coverage up to 30m².

Key features:

Seamless integration – the **AERAMAX PROFESSIONAL II** is designed to seamlessly and safely integrate into your facility's environment. Units are unobtrusive and aesthetically pleasing, mounting easily on any wall, so you can provide worry free air purification wherever it's needed most.

Auto detecting technology – intelligent sensors detect sound, motion and odour to assess a room's occupancy and condition, automatically adjusting to optimise performance, reduce energy consumption and extend filter life.

Flexible uses – Quiet Mode – quiet mode runs at below ambient sound levels, whilst rapid purification mode is initiated when room is unoccupied.

Key benefits from hybrid 2-in-1 filter

HEPA Filtration - Cleans the Air
removes up to 99.99% of harmful viruses, germs, allergens, and particulates, safely and easily.

Active Carbon - Odour Control
the hybrid 2-in-1 filter, combining activated carbon and HEPA Filter Media, 'adsorbs' odours and volatile organic compounds (VOCs).

Well-being - Expression of Care
demonstrates a greater level of consideration and concern for staff and visitors by providing a higher overall level of well-being.

> How it works

Key benefits from hybrid 2-in-1 filter

- 1 A pre-filter captures and removes large particles and contaminants.
- 2 Carbon filtration adsorbs odours and VOCs.
- 3 True HEPA filtration traps up to 99.99% of any remaining airborne pollutants. Antimicrobial treatment on the HEPA filter effectively reduces the development of bacteria and fungi on the filter.
- 4 PlasmaTrue™ Bipolar Ionisation electrically charges airborne particles to enhance filtration.
