

sanisafe6

A highly effective Quat free formulation designed for surface cleaning and disinfection.

- Bactericidal, virucidal and fungicidal efficacy including human strain of coronavirus
- CE certified for surfaces and non-invasive medical devices
- Environmentally friendly packaging with 70% less plastic waste than a tub format
- Highly absorbent, extremely low linting non-woven with high cross and machine directional strength
- Plastic lid closure to ensure wipes remain wet during storage and usage
- Large sheet size to enable effective surface coverage
